Mr. William F. Madison  
 Regional Administrator  
 General Services Administration  
 National Capital Region  
 Washington, D.C. 20405

Dear Mr. Madison:

Enclosed is a bid package for use in procuring major mechanical equipment for the Agency powerhouse at McLean. This material has been developed by a collaborative effort among our representatives, representatives of your Construction Division, and the architectural-engineering firm responsible for the design of our Headquarters expansion project. Through this cooperative effort, we have been able to prepare a bid package that covers both the needs for the expansion project as well as General Services Administration's plan for a replacement chiller in the existing powerhouse. I believe this is noteworthy since it allows us both to take advantage of cost savings associated with a larger procurement and guarantees both of us a commonality of mechanical systems when the expansion is complete.

It is requested that your organization take action to procure the equipment specified in this bid package. The Agency is prepared to transfer up to \$2 million to cover the cost of equipment associated with the Headquarters expansion. Mr. Arthur Carlucci of your Construction Division is knowledgeable of the details of this requirement.

Sincerely,

Harry E. Fitzwater  
 Deputy Director  
 for  
 Administration
